

635 BLUEWATER

SAFE SOLID AND SPACIOUS

The Stessl Bluewater runabout with its fully welded aluminium raised deck is set up to handle all inland and coastal waters. The ergonomic helm area complete with high set deluxe bolster seats has great all round vision and the Bluewater can be operated comfortably while seated or standing. The wrap around screen offers protection from the wind while still providing access to the bow with an opening walkthrough door. The large aluminium foredeck hatch opens up to create more fishing space and to give you access to the generous anchor well that can easily be fitted with an electric anchor winch.
