

445 TRUCK

SOLID, STRONG, AND TOUGH

This Aussie icon got its name for good reason - its built like a truck. The standard open layout with a full straight through carpeted floor gives you heaps of room to load up all your gear for a day on the water. Underfloor floatation and the recently updated reverse chine hull has dramatically improved the ride and performance of the Truck and the combination of fully welded side decks, 3mm rolled ribs spaced at 300mm and a checker plate foredeck make these a versatile plate sided boat. Standard features include bow and stern rails, anchor shelf and deluxe Stessl pedestal seats with four seat positions and an extensive range of options are available - please discuss your requirements with your local friendly dealership.
