

735 COASTRUNNER

SUPERIOR STRENGTH AND COMMANDING POWER

The Stessl Coastrunner has been released into the wild and is bigger, stronger and more feature-packed than ever before!

A true offshore fishing machine, the Coastrunner also provides you with the protection of a cabin with overnight sleeping quarters. A sweeping transom design incorporating twin boarding platforms and slanting rear wall has created even more room in an already cavernous rear deck, while the over-engineered PlatetriX2 hull system has been modified to provide even greater strength and allow for long-range fuel tanks. A redesigned folding hardtop now provides a handy radio/electronics box, and subtle changes throughout the boat have propelled the Stessl Coastrunner to the front of the pack!
